**DETAILED ACTION**

***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(c), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(c) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on March 30, 2009 has been entered.
2. Applicant's Amendment filed March 30, 2009 in response to Examiner's Final Office Action has been reviewed. Claims 11-21, 24-28 and 34 are pending in the application. Claims 11, 27, 28 and 34 are independent claims. Claims 1-10, 22, 23, 29-33, 35-43 are canceled.

***Allowable Subject Matter***

3. Claims 11-21, 24-28 and 34 are allowed over the prior art of record.

The prior art of record fails to teach or suggest individually or in combination determining an importance metric includes determining for each article produced by the news source during the second time period, a number of other non-duplicate articles on a same subject produced by other news sources to produce an importance value for the article, and adding the importance values to obtain the importance metric value as set forth in the independent claim 11, of normalized metric values to obtain a quality value as set forth in the independent claim 27,

multiplying each metric value in the plurality of metric values by a factor to create a plurality of adjusted metric values, and adding the plurality of adjusted metric values to obtain the quality value as set forth in the independent claim 28, and adding a plurality of metric values for the at least one on-line news article to produce a total value, and obtaining the source rank by dividing the total value by a quantity of metric values in the plurality of metric values, and adjusting a ranking of the at least one-on-line news article if the source rank exists for the at least one on-line news article as set forth in the independent claim 34.

Dependent claims 12-21 and 24-26 being further limiting to the independent claim 11, definite and enable by the Specification are also allowed.

The closet prior art, Doganata et al., US Patent Application Publication No. 2003/0220913 teaches a system for automatically selecting information sources that are most relevant to user queries. Results of searches returned by information sources for queries are analyzed and the information sources are ranked based on this analysis. The information sources that have high rankings for a query are subsequently used to search for relevant results. This process can be adaptive, as the returned results of old queries can be analyzed at a later date to update the ranking of the information sources, automatic searches can be performed to update the ranking of the information sources. The closest prior art fails to anticipate or render Applicant's limitations above obvious.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue

Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thuy N. Pardo whose telephone number is 571-272-4082. The examiner can normally be reached on Mon-Thur.
